

33: A Hand-Recorded Food was not Approved

Last Modified on 03/05/2019 2:28 pm CST

This error is generated if you or your staff disallows a meal hand-written on an Attendance Menu (you mark the appropriate bubble on the form to disallow the meal). This disallows a Breakfast, Lunch, or Dinner, but may or may not disallow a Snack (At least three food components must be disallowed for snacks).

If you see this error on a Full Bubble Menu, it may be that the Full Bubble Menu was scanned using the Attendance Menu scanning option. You must re-scan the claim with the proper scanning option.
