

36: A Meal was Recorded, but no Children were Recorded in Attendance

Last Modified on 03/05/2019 2:34 pm CST

This error is generated when providers record a meal but do not mark any children in attendance. When this happens, there is little you can do about the situation, as there is no way for you to know what children actually attended the meal. This error is generated to let you and the provider know about the situation, so the provider can correct the issue going forward.

This error should typically only be generated on scanned claims.
