

43: The Child was Claimed After the Child was Withdrawn from Care

Last Modified on 03/06/2019 10:32 am CST

This error is generated when a child is claimed after their date of withdrawal. This error disallows the child on all subsequent dates, generates a warning, or is ignored completely.

When providers withdraw children in KidKare or on the CIF (which requires you to withdraw the child), they must enter an effective date of withdrawal. You can find the child's withdrawal date in the Withdrawal Date box in the Child Information Child tab (you may need to filter to include withdrawn children).
