

53: A Saturday Meal was Claimed without Saturday Documentation on File for the Provider

Last Modified on 03/06/2019 1:05 pm CST

Some states require specific, signed statements from providers that are open on Saturday. To indicate that the provider is open on Saturday and that you have a statement on file, check the Saturday box in the Documentation on File section of the Provider Information Other tab.

This error is generated if a provider serves meal on a Saturday but does not have a statement on file in Minute Menu HX in the Provider Information Other tab. This error warns or disallows the meals.
