

69: The Child is Younger than the Provider's License Allows

Last Modified on 03/06/2019 2:15 pm CST

This error is generated if a child who is too young to be claimed is claimed (based on the provider's license) as of the meal date. This is determined by the the age entered in the Youngest box in the Ages Allowed section of the Provider Information Licensing tab.

Note: In some cases, this error may appear for large numbers of providers after data has been newly converted. Notify Minute Menu HX support if this happens.
