

# 75: A Child was Served After the Child's Enrollment Expiration Date was Reached

Last Modified on 03/06/2019 3:10 pm CST

All children must be re-enrolled each year. Minute Menu HX can be configured so each child has an Enrollment Expiration Date recorded in their file. This date would need to be updated each year to indicate re-enrollment. This error is generated if a child is served after their enrollment expiration date. It warns or disallows the given children from the meals in question. You can also configure this error to allow children for the entire month of expiration (instead of just the expiration date).

Enrollment expiration dates are entered in the Expiration Date box in the Child Information General tab.
