

86: Provider Over Capacity, but Waiver is in Effect. Verify Capacity with Waiver

Last Modified on 03/07/2019 9:38 am CST

Certain states allow capacity waivers for a specific time period. This error is generated if a provider is over capacity, but one of these waivers is in effect. All over capacity errors will be allowed.

You can find the provider's current waiver status in the Provider Information Licensing tab.
