

# 93: Monitor Recorded Different food for a Meal than was Recorded by the Provider

Last Modified on 03/07/2019 11:28 am CST

When you record the results of a review in Minute Menu HX, the processor cross-checks the foods observed by the Monitor with the information claimed by the provider. This error is generated when a provider claims foods that do not match those foods observed by the Monitor during a home visit review (during the claim month). This warns or disallows the affected meals.

This error cannot be generated for reviews where you do not specify foods that were observed. It is also not generated for claims where food information is not supplied, such as Attendance Menus or claims entered with the Record Full Month Attendance function.
