

95: A Cycle Menu was Recorded, but the Cycle Does Not Include the Given Meal on the Chosen Day of Week

Last Modified on 03/07/2019 11:37 am CST

This error is generated if a provider marks the Master Menu bubble on their form to note that a Cycle Menu was used but does not select a Cycle Menu containing a cycle meal for the given day of the week and given meal that is being claimed.

You can review cycle menus in the Plan Sponsor Weekly Cycle Menu window or in the Provider's Cycle Menu Plan window.
