96: No Foods were Served but Child(ren) were in Attendance for the Given Meal(s)

Last Modified on 03/07/2019 11:45 am CST

This error is generated when children are marked in attendance, but no foods are marked for the given children. For non-infants, this means the provider forgot to supply foods for the given meal. For infants, it can mean the same thing, or it can mean that the provider supplied foods for an age category that was inappropriate for the age of the given child.

For example, a child turned 6 months old in the middle of the month, and the provider marked infant foods in the 0-5 months age category throughout the month. There are no foods marked in the 6-11 months category once the child turns 6 months old, so this error is generated.

> **Note:** This error typically only occurs on scannable menu claims and will disallow all children in the given age group for the given meal.
