

112: Meal Claimed Before CACFP Agreement Date

Last Modified on 03/07/2019 12:27 pm CST

Some states require that sponsors renew the agreements they have with providers on a yearly basis. To track this, enter a date in the Current CACFP Agreement Date box in the Provider Information General tab.

This error is generated if a meal is claimed before the Current CACFP Agreement Date is reached. It can warn or disallow all meals claimed on the affected days.

Note: This error is **not** generated if the Current CACFP Agreement Date box is blank.
