

128: Provider is Incorporated. Own Children are not Reimbursable

Last Modified on 03/07/2019 2:41 pm CST

Food Program rules are interpreted in some states as such that incorporated providers cannot receive reimbursement for their own children, even if they are Tier 1 by Income. This error is generated for each provider who has a Business Tax ID specified in the Provider Information General tab attempts to claim their own children (if your state enforces the Food Program this way).
