

# 136: Meal Time(s) were Marked with Times on More than One Column on In/Out Forms for the Same Day. The Form Day Header May Have Been Filled out Improperly

Last Modified on 03/07/2019 3:15 pm CST

When using scannable In/Out forms, providers can supply daily meal times on those forms. If the Provider has done so in more than one column that has been marked with the same day, it may mean that the provider has filled-in the wrong day column.

This error doesn't directly cause a disallowance, but other claim errors may be generated as a result if the In/Out form was actually filled-out improperly.
