

137: Meal Time on In/Out Form, but That Meal Wasn't Included in the Provider's Claim

Last Modified on 03/07/2019 3:26 pm CST

This error is generated if a provider has supplied a meal time on a scannable In/Out form, but the meal itself was not scanned. This can indicate that the meal/attendance forms have been filled out improperly for a particular day, the In/Out form may be filled-out improperly, or a smudge was picked up in the scan.
