

150: Monitor Noted Children Present that were Not Noted by Provider

Last Modified on 03/08/2019 12:42 pm CST

This error was generated if a meal was reviewed during the month, and the Monitor saw children that the provider did not mark in attendance. This error is always a warning. Consult the Provider Reviews Meal tab for the appropriate review.

Note: This error cannot be generated unless child attendance is marked with the review in the Minute Menu HX database.
