A new upgrade has been released (version 4.3.2)

UPDATED - Non-Discrimination statement has been updated with the correct USDA link on EF/IEFs for all states.

FIXED - Whole Grain checkbox was removed from the Non Infant menu unexpectedly. This has been fixed.

FIXED - Advance Claim Month warning showing 11 year olds being withdrawn instead of 13 year olds. This has been fixed.

Developmentally Ready Updates for Infants

ADDED - Added the ability to change preference Q10 from a warning to a disallow.

ADDED - Added a new claim error that shows disallowances if an infant is marked as developmentally ready but not enough components are served for a particular meal.

ADDED - Added the ability for Providers to add the date an infant becomes developmentally ready for solid foods in KidKare child information as well as KidKare new enrollment.
